

IVF CONNECT For SURROGACY* *One of the largest networks of fellowship trained Reproductive Endocrinologists in the United States.*

WHAT IS IT?

- With multiple locations serving patients across the country, IVF Connect for Surrogacy has a national network of proven fertility physicians who offer a full spectrum of treatments providing high quality care with a savings of up to 50% of that of retail costs.
- A network of providers identified specifically for the unique needs of the surrogacy journey.

WHAT IS COVERED?

- **BUNDLED PACKAGING** – Provide all-inclusive packages including: donor and carrier monitoring, medications, labs, office visits, imaging, mock cycles, cryopreservation, transfers, screenings, and genetic testing.
- **DISCOUNTED GENETIC TESTING**
- **DISCOUNTED PHARMACY**
- **INDUSTRY LEADERS** – High quality services and pricing discounts typically reserved for the large payers of group healthcare.

DO I NEED IT?

- **BUNDLED PACKAGING = LESS EXPENSIVE** – Controlled costs with an all-inclusive cycle including medications.

WHY CHOOSE ART RISK?

- **EASE and RELIABILITY** – Allowing clients to focus on the journey rather than worrying about the cost.
- **EXPERTISE** – IVF Connect’s network of fellowship-trained physicians has achieved documented success rates that are among the top in each market they serve.
- **EXPERIENCE** - NES Assurance and ART Risk have a combined 30 years of experience in the field of Assisted Reproductive Technology (ART) providing knowledge and solutions for clients as their first priority.
- **FINANCING AVAILABLE** – An option to finance a large portion of the cost allowing more flexibility for clients.
- **SAVINGS** – The total cost differs for each patient and IVF experience however, expected savings projected up to 50% over standard retail costs.

**IVF Connect for Surrogacy program through NES Assurance brokered by ART Risk Financial & Insurance Solutions, Inc.*
