

LOCAL MONITORING*

Cost containment and claims management program for Donors and Surrogates during the IVF cycle away from home clinics.

WHAT IS IT?

- A unique way to contain the costs of claims management for Donors and Surrogates during the IVF cycle away from the home clinic.
- Local Monitoring saves the Donor, Surrogate, and Intended Parent time and financial resources by streamlining the processing and appointments.

WHAT IS COVERED?

- Includes all necessary bloodwork and ultrasounds as well as coordination of all appointments
- Communication to the local clinic, Donor and Gestational Carrier to inform them of the process
- Negotiation of rates for all providers; review bills for claims accuracy and pay bills promptly
- Online portal for bill monitoring 24/7

DO I NEED IT?

- **TIME SAVINGS** - We handle the logistics of monitoring for all appointment setting and claims, working with the donor, surrogate and IVF clinic, freeing you to concentrate on what you do best.
- **MONEY SAVINGS** - We have national contracts with Quest and LabCorp, the largest labs of their kind, as well as a large network of providers, so costs are controlled. There is a projected savings of up to 30% over retail provider costs.
- **INCREASES ACCURACY** - We have a utilization review that helps ensure services billed were appropriate and provided.
- **BENEFITS MANY** - Egg Donors, Surrogates, Egg Banking Clinics, IVF Clinics, and Surrogate Agencies will benefit from this service. The time savings and cost containment far outweigh the initial administrative fees.

WHY CHOOSE ART RISK?

- **PARTNERSHIPS** – ART Risk Financial & Insurance Solutions, Inc. is partnered with NES Assurance providing this program. This partnership involves over 30 years working in the ART community. Their combined expertise, knowledge, and networking capabilities to provide the best possible experience and savings for the client is unparalleled.
- **PROVEN RESULTS** – Local Monitoring has saved an agency over \$1M in one calendar year. The agency was able to repurpose two employees to positions that were needed to increase profits.

**Local Monitoring program through NES Assurance brokered by ART Risk Financial & Insurance Solutions, Inc.*
